

How to replace your PARKER™ "Twist" style refill

www.reMARKablepens.com

This style pulls apart at the center band and the exposed mechanism unscrews (see picture) counter clockwise. **PLEASE NOTE!** Remove the spring that is on the old ink and place it on the refill. Place this assembly back into the tube. Screw the mechanism top *firmly* back on over the replacement ink. Now press the two halves of the pen back together.
