

Twist to open!

You may also twist the cap on here as you write

How to replace the ink in your pen

Your pen has been handmade in Colorado and is refillable by removing the cap, unscrewing the nib point and pulling the old refill out. You may use a Pilot brand "G2" refill, or to keep the original feel, order Schmidt® brand refills from our web site.

PLEASE BE CAREFUL! There is a spring inside the barrel's top that can come out!
